ADMINISTRATIVE STAFF APPOINTMENTS:

Mr. George Leduc to Manager of the Loyola Campus Auditoria.

ON AND OFF CAMPUS:

The Alumni Association will sponsor an "Alumni Meet the Seniors Night" on February 15 at 8.00 p.m. in the Foyer. The purpose of the event is to facilitate closer contact between the two groups and also to allow seniors the chance to obtain useful information regarding careers from Alumni who are in a very special position to give it. The Alumni Association will also sponsor Loyola's 1st Annual Curling Bonspiel at Caledonia Rink on February 24 beginning at 9.00 a.m. The day will end with a dinner at 7.00 p.m. for all participants.

The Department of Politcal Science will sponsor a lecture by Dr. Charles Adams, Director of Islamic Institute of McGill on February 8 in Room C.309 at 3.00 p.m. Dr Adams will speak on the work of the Institute.

Loyola will sponsor an "Open House" at the College on February 20 for High School Seniors in the Montreal Area in order to give them a better idea of what Loyola can offer: The day will consist of talks by a number of the College Administrators and a tour of the buildings together with the chance to consult with Professors in the student's field of interest. The day will end with an exhibition hockey game.

Mrs. M. D'Angelo, secretary to the Dean of Studies, is also the founder and administrator of St. Joseph's House, a worthy social welfare work in which numbers of Loyola faculty members have participated. In aid of St. Joseph's Building Fund, three lectures will be given by Dr. Karl Stern, prominent Montreal Psychiatrist and Author (Pillar of Fire etc.) in the main autitorium of Loyola College at 8.30 p.m. on February 17 and 23 and March 3. The tickets are $3.00 for the 3 lectures or $1.25 for a single lecture and may be obtained from Mrs. D'Angleo. Dr. Stern's lectures will deal with the application of psychiatry to problems of daily life in various areas.

The Geotechnical Department will begin operations with its new x-ray spectro-scope in February; Dr. D. McDougall, chairman of the department stated that the new equipment will be used to determine trace amounts of elements which cause thermoluminescent phenomena. This will be done as part of the department's continuing research in the field of thermoluminescence.
